## ABOUT US

Ivory Keys for Cancer, a charity concert, was the brainchild of Ms. Mei Zhi Bi and her late husband Mr. Hua An Shen, with the goal of contributing to the promotion of cancer research and the offering of vital support to cancer patients and their families. This year marks the 5th edition of this recurring event and as always, the concert features sublime performance of award-winning students of Ms. Bi and Mr. Shen. At every Ivory Keys for Cancer concert, all money raised is donated to the Canadian Cancer Society. In addition, Ms. Bi has always hoped the concert to be a wonderful and meaningful experience for both the players and the audience. As an event mainly organized by high school students under the support of Ms. Bi, Ivory Keys for Cancer provides not only a stage for young people to show their talents and share the joy of music, but more importantly, the opportunity for them to better understand their social responsibilities and give back to the society.
